THURSDAY, OCTOBER 14, 1897.

The supreme court of the United States met at Washington City last Monday.

LOS ANGELES, CAL., has a woman lawyer in the person of Miss Elizabeth A. Kenney.

The politicians and office-holders are the strongest and only opposition to statehood.

The condition of the national treasury is not made public under the McKinley administration.

A large number of teachers from different parts of the Territory are expected here next week, and our people will give them a hearty welcome and entertain them royally.

The prison labor contract and the funding of the Yavapai county railroad bonds are two schemes that are generally condemned by the people of Arizona.

The average newspaper publisher will publish a lie as quick as the truth until it comes to the circulation of his paper, and then he is sure to publish the truth.

The negroes at Alton, Ill., want their children to attend the white public schools, and the police have been placed on guard to prevent their further attendance and to avert trouble.

OFFICIAL lightning struck H. N. McGrew of Phoenix, last Monday in the way of a presidential appointment. He is appointed register of the land office at Salt Lake, Utah. Mr. McGrew is certainly a native of Ohio.

THE Arizona Democrat published at Phoenix fails to reach this office. We only received the first number, but would have been pleased to exchange with it, as it promised to cleanse the political atmosphere about the capital city.

Gov. McCord estimates the population of Arizona at 87,500, and says Arizona has as much wealth as the average of the twenty-two states admitted from 1791 to 1876. He says our grazing lands are capable of maintaining eight million head of cattle. He estimates the annual wool clip of the Territory at about ten million pounds.

De Maupassant, the most brilliant writer of short stories that French literature has ever produced, wrote and destroyed and rewrote for several years before he published, thus perfecting a flawless style. In a few years he gave 300 stories to the world. He died insane, possibly from the strength of his imagination, the power of his literary conception.

THE McCord cohorts are beginning to squirm under the lash of Buckley O'Neil's "open letters," and are threatening libel suits. The Bulletin is with Buckley and the people of Yavapai county in their fight against the action of the Loan Commission in funding bonds which were undoubtedly illegal before Oakes Murphy passed his so-called "legalizing" funding bill through congress.—Graham County Bulletin.

THE Graham Guardian says: "The shameful acts of our Territorial Administration should make every one long for Statehood when such servants will be answerable to our own people. It cannot come too quickly."

No, it can't come too quickly for the tax-payers. Every man in Arizona who loves her soil, who loves liberty, who loves home and desires peace, happiness and prosperity should work incessantly for statehood regardless of political parties.

A HIGH COMPLIMENT.

We have received a number of complimentary notices which were duly appreciated, but for want of space we didn't publish them. Here is one from a bright, progressive newspaper man that touches our soft spot in such a way, and emanating from such high authority we reproduce it:

"The Advance acknowledges receipt of and gladly places on the exchange list, the Flagstaff (Ariz.) Sun-Democrat, with R. H. & J. E. Jones editors and publishers. These gentlemen were known by the editor hereof in days of yore when they both filled positions of honor and public trust in a sister state; and later he had them as competitors in the printing business—in every relation finding them honorable and worthy business gentlemen. May the Sun-Democrat ever shine with resplendent glory in the land of their adoption.—Ash Grove (Mo.) Advance.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at Dr. D. J. Brauer's drug store.

TERRITORIAL.

Yuma needs a national bank.

Florence needs a flouring mill.

The Salvation Army at Phoenix have received new band instruments.

The Colorado and Arizona Sheep company shipped over 8,000 head of sheep from Holbrook this week. About 3,000 head go to Iowa and the remainder to Fort Collins, Colo.—Holbrook Argus.

A new mining company by the name of the Arizona Mining Co. has established itself in Cochise county, with present headquarters at Dragoon Springs, two miles from Dragoon Station. The members of the company are from Alabama.—Tombstone Prospector.

There is trouble in Phoenix regarding Secretary Pugh of the Live Stock Commission. The relations between the Secretary and the commission have been strained, and the former has been requested to resign and turn over money, books, papers, etc., but thus far the request has been ignored, and there seems likely to be an eruption to follow.—Tombstone Prospector.

The department at Washington is evidently doing its best to make it pleasant for the new Republican postmaster appointed at Globe, when he goes into office. Notice has been received that an additional allowance for rent has been made. The total compensation of the postmaster amounts now to fully \$1800, and despite the talk of dull times the business of the office is increasing. When we were postmaster under the reign of King Grover, his pompous little hireling, Waterberry, reported that we were getting too much rent—the munificent sum of \$11.50 per month—and upon his recommendation it was cut down to \$7.50, and in order to pinch us real hard the department held us up for \$120 back pay allowed us by a Republican administration. Waterberry never returned to Globe to afford us the opportunity of winding him up, a job we would take great delight in.—Globe Silver Belt.
